

WaveRadar Rex2

Mounting System

RS AQUA

Key Features

- Long reach horizontal extension
Vertical movement <1mm under all conditions
- Designed for up to 100mph winds
- Configurable horizontal deployment hinge
- Smart bracketry fits almost all guardrail designs
- Constructed entirely of 316 Grade stainless steel
- Custom mount options available
- Supplied in wooden certified crate

About the Mounting System

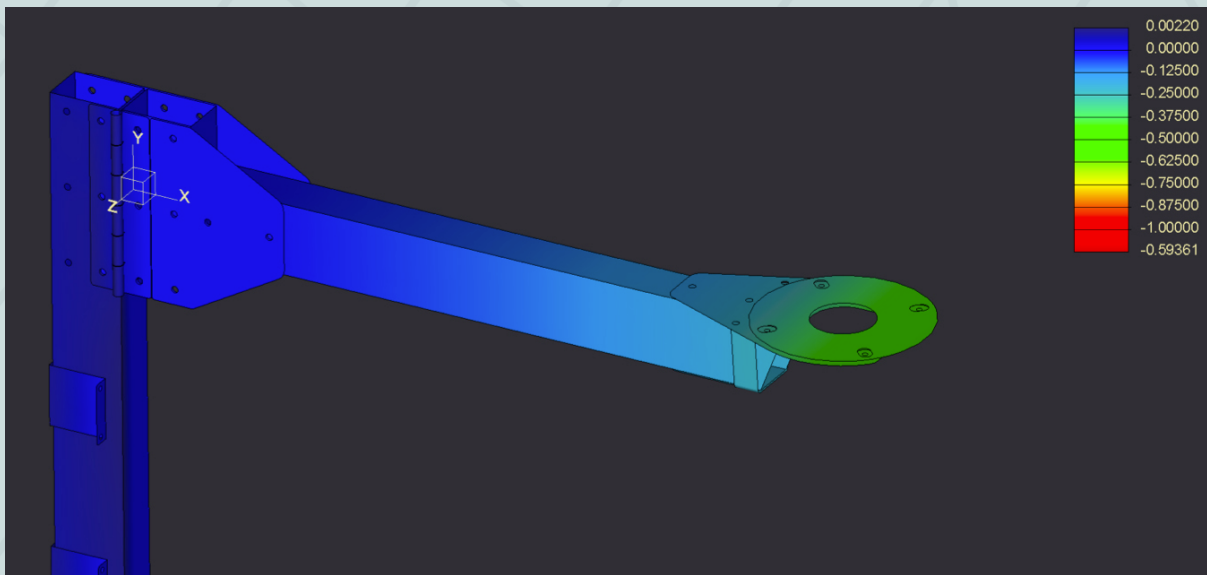

Rex2 Mounting System is tailor made for WaveRadar Rex2. It is designed to provide a stable, rigid platform that complements the high performance of the Rex2, and withstand the harshest conditions.

A horizontal, modular deployment hinge allows quick, easy and safe installation and maintenance.
